

IPhoneography

Three-hour Crash Course
Saturday, June 24, 1 pm - 4 pm

Design & Launch

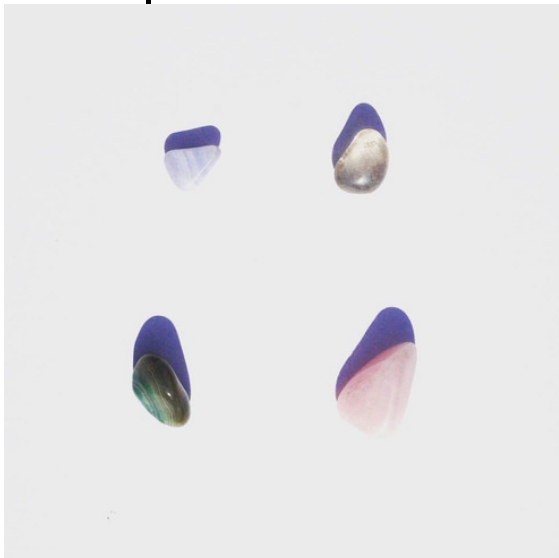

01

Overview & Purpose

Wondering which photo editing apps you should be using and how to get the most out of them? There's a class for that! In this course, you'll learn how a pro photographer uses 5 of the leading apps to edit photos on her phone.

02 Objectives

Your instructor, Deirdre Powell, will walk you through her process for editing and enhancing photos, with the popular apps such as VSCO Cam, Touch Blur, Noir Photo, Adobe Photoshop Express, and Adobe Photoshop Mix.

She'll share the powerful techniques she uses on her own photos and for the websites she designs, and explain what she is doing and why. Each app is unique, so you'll learn the differences between them and how to choose one that works best for your own style. If you want to transform your photos like a seasoned pro, this is the class for you!

Big players such as Bon Appetit Magazine, use these apps to create and design.

Students will learn the basics of taking a photograph. i.e Style, arrangements, negative space, composition, and lighting.

Learn about the different types of lenses you can use on your cell phone.

Take pictures of still life and architecture. Be able to comfortably navigate each of these photo altering applications by the end of the session.

04 MATERIALS NEEDED

Cellular device

Access to the App store or Google Plus

Please download the following applications to your mobile device:

VSCO Cam

Snapseed

A Color Story
